WEEKLY REVIEW

PORTLAND, April 16, 1869.

New York gold quotations 132¼@132¼.

Legal Tenders at San Francisco, 76 buying and 77 selling.

The eastern wheat and flour market remains dull and unchanged, with prospects of future decline. At Liverpool there is a still further falling of prices, consequent upon the excellent crop prospects throughout the grain districts of Europe, which tends to depress all the American seaboard markets.

At San Francisco, the market for breadstuffs is dull, though quotations are nearly the same as at last report. Wheat is a shade lower, the range being from $1 40 to $1 60 per cental. Barley dull at $1 65@2 per 100 pounds. Oregon oats, at latest quotations, $1 90@2 05.

Portland—The market for flour dull at the quotations of last week. Sales of country and inferior brands at figures under the current quotations. Wheat is weak at 68@70c for white and 65c for red. Oats have declined to 45@48c per bushel and only small lots wanted at these figures. The apathy of the California market consequent upon fine crop prospects and the anticipated decline in eastern markets, has checked materially the shipments from this city. Dealers could not afford to pay steamer rates of freight lately prevailing, and they have been resorting more generally to transportation by sail. The last steamer went away with scarcely half a cargo of produce. These facts have had the effect to induce the steamship company to reduce freights on flour grain and feed to $5 per a ton—a reduction demanded not only by policy on the part of the steamship owners, but by the general [illegible] of the State.

The reports from nearly all the grain-growing districts of the world concur in stating the crops to be unusually promising. If no untoward event happen, the total yield of 1869 will be larger than for many years, and we may look for a year of [illegible] prices than have prevailed, the world over, [illegible] the last ten years at the least.

The m[illegible] active, an improve[illegible] in the general dry goods [illegible], while a good trade is [illegible] is constant. Orders [illegible] east of the mountains do not come [illegible] a month or two since, [illegible] is now [illegible] pretty certain that the trade [illegible] for the spring and early summer will [illegible] for the corresponding periods of last year. The [illegible] for the purely mining districts is palpably less. One feature of the trade of this spring is of the most [illegible] nature and verifies a prediction which we have often made during the last three years, to wit: that Portland in the future must depend mainly for its trade and prosperity upon the Wallamet valley; and that the valley will be sufficient in resources and de[illegible] to push Portland vigorously forward in growth. By far the g[illegible] part of all our receipts have come from the valley, and quite as large a proportion of our merchandise sales have been made to Wallamet valley pur[illegible] and yet every wholesale dealer will say that his books show a larger business than during corresponding months of last year. These facts show conclusively the steady, permanent and almost wonderful growth of our own interior.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from [illegible] absorbed into the system. Look at their pallid, [illegible] ted and disfigured faces and their broken-down constitutions disqualifying them for the happiness of [illegible] or the enjoyment of life. In this horrid [illegible] thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are [illegible] with any of these horrible life-destroying [illegible]. See that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made *private disease his especial study for years*, [illegible] is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians in Europe and other places. Be therefore careful and make strict inquiry, or you may *fall into the hands* of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self abuse, solitary vice, or depraved sexual indulgence, is [illegible] by the youth of both sexes to an almost unlimited [illegible], producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, [illegible] the rustling of leaves and rattling of chariots, [illegible] about the loins, weakness of the limbs, confused [illegible] blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of [illegible], hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, [illegible] sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove [illegible] rily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are under any of these [illegible] ful maladies, should not [illegible] sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give the patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating [illegible] symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from [illegible] or curiosity, to any part of the country, with full [illegible] directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the [illegible]. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and [illegible] lazy to work at their trades. Some are [illegible], shoemakers, newspaper carriers, intelligence office [illegible], etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid [illegible] tion is to make enquiry—it will cost you nothing, and may save you many regrets, for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat disease that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE Letter.

Consultations FREE.

WEEKLY REVIEW.

PORTLAND, April 16, 1869.

New York gold quotations 132¼@132½.

Legal Tenders at San Francisco, 76 buying and 77 selling.

The eastern wheat and flour market remains dull and unchanged, with prospects of future decline. At Liverpool there is a still-further falling of prices, consequent upon the excellent crop prospects throughout the grain districts of Europe, which tends to depress all the American seaboard markets.

At San Francisco, the market for breadstuffs is dull, though [illegible] are nearly the same as at last report. Wheat is a shade lower, the range being from $1 40 to $1 60 per cental. Barley dull at $1 65@2 per 100 pounds. Oregon oats, at latest quotations, $1 90@2 05.

Portland—The market for flour dull at the quotations of last week. Sales of country and inferior brands at figures under the current quotations. Wheat is weak at 68@70c for white and 65c for red. Oats have declined to 45@48c per bushel and only small lots wanted at these figures. The apathy of the California market consequent upon fine crop prospects and the anticipated decline in eastern markets, has checked materially the shipments from this city. Dealers could not afford to pay steamer rates of freight lately prevailing, and they have been resorting more generally to transportation by sail. The last steamer went away with scarcely half a cargo of produce. These facts have had the effect to induce the steamship company to reduce freights on flour, grain and feed to $5 per a ton—a reduction demanded not only by policy on the part of the steamship owners, but by the general interests of the State.

The reports from nearly all the grain-growing districts of the world concur in stating the crops to be unusually promising. If no untoward event happen, the total yield of 1869 will be larger than for [illegible] years, and we may look for a year of cheaper prices than have prevailed, the world over, [illegible] years at the least.

The [illegible] active, an improvement [illegible] in the general dry goods [illegible] trade in [illegible] is constant. [illegible] east of the mountains do not come [illegible] a month or two since, [illegible] certain that the trade [illegible] for the spring and early summer will [illegible] the corresponding periods of last year. The [illegible] for the purely mining districts is palpably [illegible]. One [illegible] of the trade of this spring is of the most [illegible] nature and [illegible] a prediction which we have often made during the last three years, to-wit: that Portland in the future must depend mainly for its trade and prosperity upon the Wallamet valley; and [illegible] the valley will be sufficient in resources and [illegible] to push Portland vigorously forward in growth. By far the greater part of all our receipts have come from the valley, and quite as large a proportion of our merchandise sales have been made to Wallamet valley purchasers, and yet every wholesale dealer will say that his books show a [illegible] business than during corresponding term of last year. These facts show conclusively the steady, permanent and almost wonderful growth of our own [illegible].

[illegible] and Jobbing Prices.

PORTLAND, April 16, 1869.

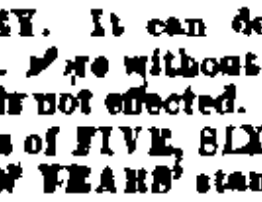
HIRAM SMITH'S



Ophthalmic Panacea!

IT IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even NINETEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. D. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs. MONTGOMERY,	JOHN M HOLLOWAY,
W. D. PORTER,	ROB'T RAMSEY,

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

Prepared by SMITH & ROACH, Harrisburg, Oregon.

The Grecian Bend.

Let's have the old bend and not have the new;
Let's have the bend that our grandmother knew;
Over the wash-tub and over the churn,—
That is the bend that our daughters should learn.

Let's have the bend that our grandmothers knew.
Over the cradle like good mothers true,
Over the table (the family round)
Reading the good book 'mid silence profound.

Let's have the bend that at church they did wear,
Bowing them lowly in meek, humble prayer,
Not sitting erect, with the modern miss air,
With the "love of a bonnet" just perched on one hair.

Leave the camel his hump—he wears it for use;
Leave the donkey his pannier—and cut yourselves loose
From fashions that lower, deform and degrade
To hide some deformity most of them made.

Let our heads of false hair and not yarn skeins be shorn
Let our garments be easy and light to be worn,
Don't shake in December and swelter in June,
And appear like unfortunates struck by the moon

Let's spend the time in things higher than dress
Time that was given us to aid and to bless,
Time that is fleeting and passes away,
Oh, let us work while we call it to-day

Let's have the old bend instead of the new—
Let's have the old hearts so faithful and true
Away with all fashions that lower and degrade
To hide some deformity most of them made!

A Visit to Liebig.

In Munich lives Baron Liebig, the chemist-philanthropist, occupying a large but plain house of two stories, near the Botanical garden, and with pleasant garden and vines of its own. Adjoining by a covered way, is his public lecture room, where he lectures to the students four times a week. Knowing Baron Liebig's partiality (I think I may so call it,) for Am[illegible], and not wishing to return without having seen a man whom we all so much honor, I rang at the door the other morning and sent in my card. I was at once shown to his study, which is piled up with books, [illegible] and [illegible] evidently the workshop of a busy [illegible]. I noticed by his arm [illegible] his simple tea-service (you know the G[illegible] never eat a breakfast worth the name) which he had evidently left [illegible] his light repast was finished, to watch the progress of some experiment in his private laboratory which communicates with the study. There I found him cooking, I know not what. He received me with that cordiality which he usually shows to Americans, and to all others very likely; and, after some moments watch of his mixture, chatting pleasantly all the while, he led the way back to the study, where we took [illegible] and began to talk about America. He was full of wonder and admiration for the country and its people. He had just been reading Richardson's *Beyond the Mississippi*; and it had given him a new idea of the extent, the boundless resources of the country, and the indomitable energy and pluck of the people. He was delighted with Grant's election; but he said what astonished him more than anything else, more than almost anything in history, was that the American people should have had the discernment and wisdom to find out and elect to the Presidency Abraham Lincoln, and the constancy and faith, in the midst of the disasters of the war to [illegible] him. It is wonderful!—he re[illegible], it is [illegible]ful! The conversation chang[illegible] he spoke of his extract of meat, which [illegible] the same, is made in South America [illegible] to Antwerp, and not a pound of it is allowed to be sold in any part of the world until, to prevent counterfeits, every [illegible] ment has been subjected to his analysis. He insisted that I should take with me a jar of it. It is, in reality, only beef tea, evaporated to the consistency of honey, and contains no gelatine or fatty matter. Three pounds of it is extracted from 100 pounds of beef; it will keep in any exposure of climate! He also showed me a new powder which he was trying to introduce for making bread. I think he said it was an invention of an American pupil of his. It contains the simple elements rejected when ground wheat is bolted to make fine flour. It has only to be mixed with the flour and kneaded with water, when it is ready for the oven.

It is the distinguishing trait of Baron Liebig's investigations that they may lead to some benefit to the common people. One of his good intentions has been recently checked [illegible]. The manufacture of look[illegible] with quicksilver is very prejudicial to the health of those engaged in it; and Liebig, to save the lives and health of the workmen, made a series of experiments, and at last was enabled to throw a thin coat of silver upon glass, forming a perfect mirror, and at much less cost than those with quick[illegible]. A firm in Gl[illegible]ow undertook the manufacture, and succeeded perfectly, produ[illegible] looking gl[illegible], which they offered cheap. But they would not sell, and [illegible] do you suppose was the reason? They are too [illegible] reflectors, they show the face just as it is, without that grayish hue and softness which ladies (well, men too) have come to consider natural, and which the quicksilver gives.

[illegible] of America again, "I should very much like to see it," said he, "but I never [illegible]. I am getting too old; and I am a little [illegible] the effect of an injury to my [illegible] [illegible] ago. I have many friends there correspondents and pupils; but the time has gone by for me to go." That Liebig's faith in America is not a fancy was shown during the most doubtful days of our war, when he bought our bonds, and said to an American friend here that if there was any way to reduce the interest on them he should be quite willing to take less, for 4 or 5 per cent was enough with such security. I do not know Liebig's age, but he is still erect and vigorous. I should photograph him as a man of full average hight, neither slight nor stout, good firm shoulders, square face, keen gray eyes, and silver-white hair. The face expresses resolution and perseverence without severity, and is altogether agreeable and winning. A man of [illegible] years, a pleasant talker, abounding in all sorts of information without being di[illegible]tic. A delightful companion to those who have the privilege of his society.—*Correspondent of the Independent.*

HIS OWN LAWYER.—An amusing occurrence happened in one of our New York Courts not long since. A prisoner on being arraigned to answer the charge of robbery, requested permission to act as his own counselor. The request being granted, he turned round to the jury and addressed them in the most solemn manner imaginable, something to this effect: "Gentlemen, each and every one of you will one day be brought up for trial. Jesus Christ will be the Judge, and his twelve Apostles the jury. They will question you closely concerning your acts and judge you accordingly. Inasmuch as you will seek mercy of them, I now entreat you to grant it to me." Notwithstanding this appeal, the jury found the prisoner guilty without leaving their seats, and he was sentenced to Sing Sing for a term of years.

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE,	NATHANIEL BELL,
A. L. WALLACE,	G. R. WARD,
Mrs. MONTGOMERY,	JOHN M. HOLLOWAY,
W. D. PORTER,	ROB'T RAMSEY,

And others in that vicinity

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

THE MECHANICS' INSTITUTE OF CALIFORNIA. — The seventh annual industrial exhibition of the Mechanics' Institute of California will open at San Francisco on the 14th of September next. We take the subjoined extracts from a circular issued by the President, March 30th, by which it will be seen that the exhibition will be open to all the people of the Pacific coast, and adjacent countries:

"A finely constructed building has been completed and fitted up, at an expense of $45,000, covering a ground area of 70,000 feet, suitably provided with facilities free of cost to exhibitors for the proper exposition of goods. It is thoroughly ventilated, and lighted at night by 1,300 gas jets. A fine pond, 42 by 24 feet, having three fountains, throwing water 50 feet high, and surrounded by numerous small sprays, animates the scene, and keeps the atmosphere cool and refreshing. Two series of galleries surround the main nave, with accommodations to seat 1,500 persons in the lower gallery, and room for 2,000 more to promenade in the upper one. A line of shafting 200 feet in length, provided with all necessary pulleys, etc., and driven by powerful steam engines, furnishes power for working machinery and models.

A band of fifty musicians discourse music to visitors every evening, and all requirements of the inner man are provided for by the ... restaurant, etc.

The Board of Directors will spare no effort to make this the most attractive and instructive exhibition of the industries of the Pacific coast, and particularly of California, and in this they have the hearty co-operation and assurances of all the leading manufacturers on this coast.

It is intended to make it essentially cosmopolitan, and exhibitors have been invited from China, Japan, Hawaiian Islands, British Columbia, Mexico, Chili, Peru, and various other points of interest. * * *

The Directors of the Mechanics' Institute invite strangers to visit this city during the term of the Seventh Industrial Exhibition, to witness what has been done in so far distant and, until now, isolated a country, towards advancing the economic industries, and civilization.

Strangers and visitors will find San Francisco well provided with hotels, and they can rest assured of being hospitably treated by its citizens.

The ... will be glad to receive desirable articles for exhibition, and will accord space for the same if application be made before the first day of August next, stating definitely the character of the exhibit, and the amount and kind of space required. All articles intended for exhibition must reach here by the first day of September next.

Desired information can be obtained by addressing J. H. Gilmore, Corresponding Secretary of the Mechanics' Institute of the City of San Francisco, to whom all communications should be addressed, or articles intended for exhibition can be consigned."

ARRIVAL OF THE "HATTIE C. BESSE." — The bark Hattie C. Besse, from New York, the third vessel in the ... Baker & Mercer line, arrived at this port yesterday, in tow by the steamer *Okanagan* from ... river. She is a four masted bark, 220 feet in length, 35 feet beam. We learn that she has about 1,000 tons freight. She is among the largest vessels — in capacity — that has ever visited our river, though she is now drawing less than twelve feet of water. The following is her memoranda of the trip from New York: "The four masted bark *Hattie C. Besse* of Boston, left New York for Portland, Oregon, Nov. 24th, 1868; had ... days to the equator in the Atlantic; thirty days to 50° south latitude; twenty-five days from 50° south in Atlantic to 50° south in Pacific; twenty-four days from 50° south to the equator in Pacific; twelve days from the equator to 30° north; twenty-two days from 30° north up to Columbia river bar; one hundred and thirty ... days from land to land. In the Atlantic had ... trades, but very changeable and squally ... from river Plata to Cape Horn had heavy ... and southwest gales. Carried away main-top ... mast and lost Isaac Fleming, of Liverpool, N. S., and ... Wilson, of Norway, overboard; had boats stove. Went inside to the eastward of Cape Horn, with ... wind; worked up inside of Hermit ... and ... in Orange Bay. Came out February ... with light easterly wind and fine weather. Orange Bay is a fine, commodious harbor for ships, safe from all winds, easy of access, plenty of wood and fresh water, good holding ground in from five to ten fathoms of water. It would make a splendid supply station for vessels ... on either side of Cape Horn, with no obstruction in either the eastern or western passage. In the ... had no regular southeast trades; in latitude ... had northerly winds; north of the equator ... winds and calms."

... BINDERY AT SALEM. — We learn that Messrs. C. D. ... & Co. have ordered the necessary material for a ... establishment at Salem, and will begin work as soon as it shall arrive from San Francisco. Mr ... has been for a year or more carrying on the business at this city. The firm will at once order out from New York all the material not attainable on this coast, for first class and extensive establishment, and will be ... to carry on the book-binding business in all its ... They will bring to the work large experience not only in the bindery business proper, but in practical book and job printing.

"A FLASH OF LIGHTNING." — This is the title of a ... drama by Augustin Daly, author of "Under the Gaslight" and other popular sensations. It is a ... piece, richly interspersed with thrilling ... startling situations, brilliant dialogue and ... — in short, one of the most intensely ... dramas of the sensational school. It will be ... for the first time, to-night, at Oro Fino.

PEARL CARDS. — We learned yesterday that those ... cards, mentioned yesterday morning, were ... at Mr. A. L. Stinson's job office, Salem. They ... to be obtainable on this coast, and Mr. ... ordered them out from Boston. They are a ... invention and are called in the invoice simply ... cards, though they ought to have a more pretentious name. For wedding cards we can conceive of nothing ... and appropriate.

THE PUBLIC SCHOOL. — The several public schools of this city will be re-opened next Monday. We are informed by one of the directors that no changes of teachers in either of the city schools, (except the colored,) will be made. The positions of teacher in the colored ..., and in the house out upon the McAdamized road, have been awarded to others than the late teachers, and will, doubtless, be accepted.

COMPLIMENT TO PORTLAND. — The Mechanic's Brass Band of this city, has been engaged to furnish the music for the Anniversary ball at Salem, on the 26th. Considering that this is to be one of the grandest affairs of the kind, got up in this State for many years, we think the engagement of the Mechanic's Band a compliment not only to the band but to our city.

THE MAILS. — Many people have evidently not yet learned that the mails no longer arrive by the afternoon boat, from up the valley. Since the change in schedule time, which occurred on the 1st of the month, the mails come through by stage, and arrive here at 9 to 10 o'clock in the evening.

SALE OF CONDEMNED PROPERTY. — We notice on the bulletin board at Headquarters, a card announcing a sale of a large lot of condemned property at Ft. Vancouver, on Monday the 17th inst., consisting of quartermaster's and other stores.

THE "GEO. S. WRIGHT." — A telegram from Victoria, Thursday, the 15th, announces "that the *Wright* left on Tuesday for Portland, but had to put back to the roads yesterday. Think she sailed again yesterday afternoon."

JOB PRINTING FIRM. — We call attention to the business card of Messrs. Himes & Daly, successors to Carter & ..., in the job printing business, and we take pleasure in commending them as genial gentlemen to deal with, and accomplished workmen.

SALE OF FURNITURE. — At 10 o'clock to-day, Mr. A. B. Richardson, auctioneer, will sell on the premises, corner of Fourth and Alder streets, a large lot of household furniture belonging to Prof. H. G. Grob. The articles comprise parlor, dining-room and kitchen furniture.

FOR LEWISTON. — The steamer *Owyhee* will start, says the *Commercial*, from Celilo for Lewiston on to-morrow morning, [Friday] — the first attempt to reach that point this season.

FOR VICTORIA AND PUGET SOUND. — The steamship *Oriflamme* will leave this port on next Tuesday, the 20th, for Victoria and Puget Sound. A number of guests, invited by Mr. Holladay, will accompany the excursion.

CIRCUIT COURT. — The case of Clackamas County vs. The People's Transportation Co. was argued in the Circuit Court yesterday, and submitted to the jury.

PER BARK ALMATIA. — Our list of consignees per bark Almatia, published yesterday morning, needs correction by adding to it, Corbitt & Macleay, 834 packages.

General and Particular.

Mrs. Howe's famous "Battle Hymn" was written between midnight and dawn, after a visit to the "hundred circling camps" about Washington, in the winter of 1861-2.

Sir Isaac Newton, while yet a lad, "made a small cart with four wheels in which he could drive himself by turning a windlass." Here, then, is the genuine original inventor of the velocipede.

The Chicago *Post* says: "It is said by those who ought to know best, that the reason which deterred the Hon. James F. Wilson, of Iowa, from accepting a Cabinet appointment was his dread of apoplexy.

The rapid increase of journals in England has affected the *Times* in a sensible manner. It is stated that it cannot rely upon its reputation to sustain it. It is making preparations to reduce the price from three pence to two pence. This is the only course left it.

A new York paper says: "Ex-President Pierce writes to a friend in Georgia that although quite weak he will 'come out with the birds.' What sort of birds? Canvas backs or teal ducks? Yes, that is an important question. A great deal depends upon the plumage.

Within fifteen miles of Keokuk, Iowa, there are 7,000 acres planted in grapes, nearly all for wine making purposes. One man has planted seventy-five acres, and is prepared to plant thirty more in the spring, all for wine making. Some wine growers are making $10,000 a year.

The Boston *Transcript* says: "It is a little over 30 years since Pemberton square was occupied by the splendid garden of Gardiner Greene. Ten years ago it was occupied by our most aristocratic citizens; now the houses on the east and west sides are almost entirely occupied by lawyers' offices and manufacturing corporations. So we progress."

President Johnson ought to be known as the Veto President, though, it turns out, on examination, that he did not veto as extensively as has been supposed. The record is as follows during his term, in which two Congresses held five sessions: Total vetoes, nineteen; "pocket vetoes," six; become laws without the President's signature, sixteen. Nearly all the bills he vetoed were promptly passed over the veto.

Just before Grant was inaugurated, he drove down to a school on Thirteenth street, at the capital, in his private carriage, and set his little boy, a new comer at the school, on the sidewalk. The other boys, who were no respector of persons, cried out, "There's little Grant, let's paste him!" And did so effectually paste him with balls made from the newly fallen snow, that he called his fathers aid, but Ulysses laughed at him and drove off.

PORTLAND, April 12, 1869.

Mr. Albert Bartsch, piano maker, has remodeled and renovated an old piano belonging to me, which now has an extraordinary good sound and appearance. The work done on it is of the most substantial character and made in a workmanlike manner. With the greatest pleasure I recommend him to the public of Portland as a No. 1 mechanic. Yours,
JACOB STITZEL.

PORTLAND, April 12, 1869.

I take this opportunity of certifying to the capability of Mr. Albert Bartsch, of this city, as a *first class piano maker and repairer*, having repaired and tuned pianos for my scholars and myself. It is with great pleasure that I recommend him to the citizens of Portland and vicinity, and trust that he will receive a liberal share of patronage.
H. GUIDO GROB.

THE fame of the celebrated PLANTATION BITTERS has no parallel in the history of Medicine. The thousands upon thousands of bottles that are made and sold daily is but proof positive of their wonderful virtues. Thousands of Certificates can be produced showing the efficacy and certainty of the cures which they effect, and the Medical Fraternity, usually so jealous of anything which causes persons to think and doctor for themselves, are compelled to acknowledge its efficacy and wonderful virtues, and prescribe them for those who seek their advice. They are sold by all our druggists.

THE NEW ADMINISTRATION has filled the various offices; so have BARMAN BROS., filled their spacious store, corner Front and Morrison Streets, with the Latest Styles of Merchant Tailoring Goods, consisting of French Cassimeres, Beaver, Broadcloths and all kinds of Vestings, also a fine Stock of Ready Made Clothing, and Gents' Furnishing Goods, which they are enabled to sell lower than any other House in their city, as their Mr Isaac Barman is constantly in the San Francisco market, purchasing at the most advantageous prices, of which their customers always have the benefit. Go and see them — no trouble to show goods.

DEATH! DEATH! — *Adulteration, Sure Death.* — The *World* newspaper has exposed the vast amount of deleterious adulteration of liquors and groceries, but in the Drug business it is carried on to a *greater* extent, thus producing Death, in consequence of physicians not obtaining the desired results from their remedies. The Drugs and Medicines at the Oregon Dispensary are *fresh* and *pure*; hence all of our *first class Doctors* prefer our store to any other in this city.
LORYEA & KALLENBURG,

GREAT EXCITEMENT. — The constant buzz of activity at KOHN & FISHEL'S yesterday, was occasioned by the receipt and opening of a very large and complete stock of Clothing and Furnishing Goods — Spring Styles — purchased and sent up from San Francisco, by Mr. Fishel, who is acknowledged to be one of the best judges of that line of goods, doing business in this city. Call and see the Spring Styles.

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches, COMBINING THE BEST AND LATEST IMPROVEMENTS, and at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

For sale by all dealers.

No watches retailed by the Company.

Manufactory Established in June, 1851.

STEAM POWER, NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

the Legislatures who have voted for the fifteenth Amendment, surrounding the names with deep black borders and saying 'Let them be recorded on the blackest page of history.' We remember that these journalists a few years ago played the same prank with the names of those who voted for the abolition of slavery

The financial condition of the United States has recently been the subject of a report transmitted by the Secretary of the British Legation at Washington to the English foreign office. The Secretary of Legation reports that the resources of the United States are so ample, and the character of the people so energetic and industrious, that a suspension of their wonted prosperity can only be regarded as temporary

The New York *Post* opens a broadside upon the alleged corruption of the New York Board of Education The Board receive their millions annually to educate the poor While thousands of precocious children are running the streets who never had a primer in their hands, the Board resolves itself into a ring—a strong ring of gold and iron— firm as iron and malleable as gold when their interests are at stake." This ring is also a political power in the interests of the Democratic party

The statement is frequently made that Major-General George H Thomas was senior in rank to General Sheridan and that the promotion of the latter to be Lieutenant-General was a slight to the former distinguished officer. This is a mistake, as Gen Sheridan's commission as Major-General bears date Nov 1864, and General Thomas Dec 15 1864. Gen. Meade, however, ranked them both as his commission is dated August 18, 1864, and General Halleck dates back to August 19 1861

Speaking of the disestablishment of the Irish Church an Eastern journal observes that it is only thirty years since Macaulay in the *Edinburg* piteously yelled the very high theories of Church and State promulgated by Mr Gladstone yet now the latter has accepted the political philosophy of the former and put through the House of Commons a bill embodying as liberal principles as the *Edinburg* ever advocated It is as though Mr Calhoun had lived to press the Suffrage amendment to the Constitution through the House of Representatives

The *Herald* makes ado because we have not published what it calls the speeches of Senators Williams and Corbett on the Fifteenth Amendment Now we wish to inform that paper that the remarks made by the Senators which it has published in part do not relate to the Fifteenth Amendment They were made in antagonism to the Senate proposition, which proposition was rejected by the House A conference report was agreed upon in which the objectionable features opposed by our Senators were expunged The speeches made by Messrs Williams and Corbett from which the *Herald* has given extracts have no relation to the proposed amendment in the shape it now bears and for this reason we have not published them It signifies very little what any Senator has said upon a rejected proposition. The Age of Gold.

The *Herald* has an article on Mr Miller's poetry, a small volume which we have already noticed; and in its essay it reaches the following conclusions.

> Besides, he has not here in Oregon the surroundings to call forth true poetry. To be sure we have beautiful scenery of mountain, river and plain, and yet, for all this, *Oregon cannot be the home of real poets*. There is too much sameness in scenery and climate. Our mountains remain unchanged and soon pall the eye, the verdure of our forests is the same eternal green, our climate is but slightly variable. Here we do not have the majestic march of the seasons, which, with their ever-changing drapery of forest, field and river, constantly bring to the eye new beauties, and awaken in the soul the sublime emotions which alone produce real poetry. Our climate is the best in the world for health, stock raising, the production of cereals, and for furnishing the comforts and conveniences of life, but Oregon, we predict, will never be the home of any great poets, *and hence it is that we deem that Mr. Miller deserves* great credit and praise for bringing forth such a rich harvest from so poor a field.

Now it may be that the ages which have produced the highest descriptions of poetry are gone never to return; and it is certain that the present is an *age of railroads, office-getting*, stock-jobbing, etc., and not an age of poetic sentiment. But we maintain that in Oregon there are all the surroundings to call forth true poetry, though it may be that "the taint of trade" has so affected the thought of our people in common with that of the whole world, that very little good poetry may be produced here. The climate of England is very similar to our own, and it is pretty certain that England has produced some very creditable poetry. But that was before the dawn of the "commercial age," and there is no *probability* that England will ever produce another Shakespeare or another Milton. But because England has not now any *great* poets, though she certainly has one or two of [illegible] power, we are not to conclude that she is utterly destitute of the natural beauties which "awaken in the soul the sublime [illegible] which alone produce true poetry." "The age of gold warms not with themes of love." So says a modern versifier by way of apology for his poem; and he has hit it exactly. They are gone, those transcendental and [illegible] which have produced the [illegible] of poetry, and whether they are ever to [illegible] or not, it is certain that we have [illegible] not now. The character of this [illegible] well [illegible] by the fact that even our [illegible] civil war [illegible] forth [illegible] or [illegible] which will [illegible] the literature of the world. War [illegible] days is [illegible] and [illegible] of poets [illegible] the [illegible] tax-gatherers and accountants. There are eras in the intellectual progress of the race, and for the present the world has quit [illegible] and gone to grappling with what it [illegible] "practical facts." Hence if we never see any good poetry in Oregon it will not be [illegible] this is a "poor field for poetry," but [illegible] new aims and new habits of thought [illegible] of the race of men.

[illegible] of Labor.

The New York *Times* recently devoted a [illegible] of articles to a history of Protective Unions and Co-operative Associations, which [illegible] people of the country have formed and are still forming for their protection. [illegible] January the fifth annual convention of [illegible]

A Way to "Save" Money

Any person who wishes to *obtain financial* wisdom in solid chunks should look in the Democratic papers. For instance, the San Francisco *Call* contains the following

> By closing the national banks, redeeming their notes with an equal amount of legal tenders, and cancelling the bonds held as security for their payment, the country would be relieved of the payment of the interest on $300,000,000, which amounts to some $18,000,000 in gold, annually This would be a saving, while the greenbacks would be equally as good, if not better currency than the present bank notes

The question arises at once, how is the Government to cancel these $300,000,000 of bonds? It is not prepared to redeem them It must therefore pay interest on them until such time as it *can* redeem them The bonds on which the national bank circulation is based do not differ from other Government bonds, and no more interest is paid on them now than the Government would be obliged to pay if the banks were closed It is true that "by cancelling these bonds we would get rid of paying a good deal of interest, but we could save more interest by cancelling the whole debt. It requires something more than the stroke of a pen or the wipe of a sponge to cancel the bonds. We must have money to pay them. Again, the Government could not issue greenbacks to the amount of the bank notes in circulation By a solemn contract with the public creditor it is prohibited from issuing greenbacks to a greater amount than $450,000,000, and there is nearly that sum now in circulation. No one but an ignoramus or a dishonest partisan would write such a paragraph as the above from the San Francisco paper.

The Poor Man's Paradise.

The *Inland Empire*, published at Hamilton, White Pine, in its issue of the 31st March, under the heading of "The Elements Again," uses this language, which cannot be called particularly encouraging to those who have supposed that the poor man's paradise lies in that quarter:

> We are again in the midst of one of our intermontane spells of bad weather. Rugged and chill the inhospitable atmosphere scourges the poor wretches "that bide the pelting of this pitiless storm." Their "houseless heads" and "unfed sides" may wander from tent to tent, but yet the curling snow must prove their only canopy. Seriously, however, we have had a heavy storm and a heavy tempest. Strangers are pouring into the district from all parts very rapidly. The accommodations of the place are not ample. Facilities for building have not kept pace with the extraordinary influx. This influx, within the next month, will increase. Should the weather fail to moderate, what will the redundant population do—where will it find shelter? We are perplexed beyond measure to explain this ever-present problem. At present there is much misery and much physical suffering in our midst. We know of numerous cases in our own private walks. Yet they receive the attention of good Samaritans. But when the great human tidal wave will reach here two months hence, the will would be as willing but the flesh too weak. The present storm may pass away; but the duty of the well to do to see to the suffering and the "poor who are always with you," will never cease to find you. At this time, when the skies are lowering and the snows are wildly drifting, is the time for the good men in our midst to perform their deeds of humanity.

Small Notes.

Our morning neighbor wants us to state whether "Virginia ever gave her consent to the formation of the State of West Virginia, and if not, if West Virginia is a State of the Union?" The assent of Virginia was not necessary. She has not possessed the rights, or been able to exercise the functions of a State since 1861. Therefore West Virginia is "a State of the Union."

We notice that Democratic papers in some

STATE ITEMS.

About 500 head of cattle have been purchased and driven out of Josephine county within the past month

A large band of fine horses from Umpqua, for the San Francisco market, says the Jacksonville paper, was driven through the valley this week

A Southern Oregon paper reports that the lawyers on both sides of the Abrams stage suit are busy preparing for the May term of court in Douglas county It is brought to recover $10,000 damages for injuries received by the upsetting of the stage near Canyonville in August last, by which the plaintiff lost his leg

A female calling herself "Miss Mayflower" ventilates the subject of female suffrage and the general rights of crinoline, in the Roseburg *Ensign*. Miss M desires to vote and sell ribbons, to either of which we have no objections Should the ladies, says the *Sentinel*, even go *so far as* to demand the privilege of sawing wood, holding the plow or flying to arms (we don't mean firearms) when the bugle blast of war sounds, who could say nay?

The Jacksonville *Sentinel* reports that work is progressing on a quartz ledge near that place with satisfactory results Messrs Dillon and Bowden, who own nine tenths of the ledge, have sunk on it about seventy feet, and at that depth it has widened to about two feet. It was almost impossible to break a piece of the rock last taken out and not find gold in it, and indeed, we saw specimens taken out that were nearly half gold, and as rich as any ever taken out of Gold Hill The owners intend to "sink" till they reach a depth of one hundred or one hundred and fifty feet, and if the rock continues to prospect as it does at present, it will justify proper and scientific opening and surely prove a source of wealth to Jackson county.

The *Farmer* has the following in regard to a new variety of potato: Having had the pleasure of the company of the Hon. A. J. Dufur, recently, under circumstances calculated to bring out the information of the party present upon agricultural products of Oregon, we were surprised to learn that the "Dimick" potato is not generally known by the farmers and gardeners near the city of Portland. Indeed, our friend informed the company that he was then eating of that superior variety of esculent for the first time, to the best of his knowledge. This potato is an Oregon seedling, raised by the late Mr. Dimmick, of this county, and is equally excellent for its good quality, early maturity and long keeping. It seems to us the farmers and gardeners near Portland should have this potato.

OUR WASHINGTON LETTER.

FROM OUR REGULAR CORRESPONDENT.

WASHINGTON, March 27, 1869.

THE NINTH CENSUS.

On Wednesday Garfield, Chairman of the select committee on the census, reported to the House a bill to provide for taking the ninth and subsequent censuses. It establishes a census bureau in the Interior Department, with a Superintendent at the head of it, appointed by the President, with a salary of $4,000 per annum, and an Assistant Superintendent in each Congressional District and Territory, to be appointed by the Secretary of the Interior. *The Assistant Superintendents are to* receive $8 per day for six months and are authorized to employ a number of subordinates sufficient to take the census in two months, with a salary of $5 per day while actually employed. Each State will be allowed, during the next ten years, one *Representative in Congress to every 150,000* inhabitants, which will give about 270 members to the House. After 1880, one Representative for every 170,000 inhabitants is allowed.

ANOTHER PACIFIC RAILROAD.

Senator Rice, of Arkansas, has introduced in *the Senate, and Gen. Logan in the House*, a bill for a railroad from Cairo, Illinois, southwesterly through Missouri, Arkansas, Texas, and Northern Mexico to Mazatlan or San Blas on the Pacific. The entire distance of this line from Cairo to the Pacific ocean is said to be only about 1,500 miles. The bill provides that the United States shall secure interest on the bonds of the company to the amount of $15,000 per mile, for a period of thirty

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO APRIL 15.

Washington News

CHICAGO, April 14.—Admiral Craven has been ordered to the command of Mare Island.

The President has sent in the following nominations: Chas C Crowe, of Alabama, as Governor of New Mexico; Geo. I. Lammon as Marshal of Nevada; C. M. Patterson as Receiver of Public Money at Marysville, California; Wm A Davis as Receiver of Public Money at Stockton, California. Postmasters—J. M. Billings at Santa Clara; J. J. Smith at Oroville; M. J. Tolls at Vallejo and D. A. Saskett, Petaluma.

Among the confirmations to-day, was Samuel L. Watson as Collector for Montana, and Kennedy and Jacobs Associate Justices of Washington Territory.

Particulars have been received of the seizure of two passengers from the American schooner *Lizzie Major*, bound to New Orleans from Havana, by a Spanish frigate. The ground for their arrest is stated that the names of the two passengers were not on the vessel's manifest. The American Consul General in Cuba has ordered a thorough investigation.

The President has directed the Secretary of War to order Gen. Reynolds to proceed to registration in Texas for an early election. It is expected similar orders will be issued in the case of Virginia and Mississippi.

Many Senators think the Executive session will close this week.

The Senate to-day, briefly considered the naturalization treaty with England.

The Darien ship canal treaty was considered, but the Senate arrived at no conclusion.

A list of 152 clerks is being prepared in the Third Auditor's office and Treasury Department, for dismissal. It includes all the Democrats and members of the Johnson Department club and the Conservative army and navy union. Large numbers of female clerks will be discharged to-morrow.

It is stated that Fisher, who has been nominated as Commissioner of Patents, is engaged as counsel in five large patent cases, involving about $8,000,000.

The Senate Committee on Foreign Relations has had a lengthy session on foreign appointments. Many of these are regarded as improper and unfit to be made. Action is postponed for the present.

CHICAGO, April 15.—A Washington special says the Senate yesterday agreed not to dispose of the Darien ship canal treaty in the present session, but wait for additional information. Wilkinson strongly favors a railroad instead of a canal.

The San Juan boundary treaty was also discussed.

Probably several nominations to foreign missions will be recalled. There is strong opposition against Mr. Pile, for Brazil, and Mr. Carlisle for Stockholm.

Senator Schurz has received over seven thousand applications for office.

NEW YORK, April 15.—A Washington special says the Senate yesterday ratified the naturalization treaty with England, similar in provisions to other treaties on the subject with other European Powers.

Secretary Fish has received Minister Hale's resignation.

Fred. S. Bayne was before the Court of General Sessions yesterday, charged with being a member of the Vigilance Committee and promulgating inflammatory reports about crime and courts. Judge Bradford discharged him, and declared if he was brought before him again, he would send him to State's prison.

Fire at Pittsburg.

PITTSBURG, April 14.—The extensive oil refinery of Forsyth Bros., at Sharpsburg, near this city, was almost totally destroyed by fire to-day. A tank of benzine exploded and the flames spread rapidly, setting the house, containing 1,500 bbls. of resin and 70 bbls of distilled oil, on fire. All was burned up this afternoon. At 7 P. M the tank containing 20,000 bbls. crude oil caught. At 10 o'clock still another alarm has struck, indicating that the fire is still raging. It is feared that the adjoining refineries may have taken fire. The total loss is estimated at from $125,000 to $200,000. Two men, two women and a child were burned by the first flames which spouted from the benzine, and one woman was injured seriously.

Cuban Affairs.

HAVANA, April 14.—Napoleon Arriso and other insurgent chiefs are heading a party in the Central Department of Cuba in opposition to General Quesada, who, however, has the largest number of adherents. Volunteers are organizing in the interior.

The *Voce de Cuba* warns the public against over confidence in the termination of the insurrection. The *Diario* says the Spanish war steamers are watching the two expeditions expected from the United States. Cassanova is still unreleased. A decree has been issued authorizing the raising of 1,000 additional guards to protect the property of western planters, who are to pay them.

Advices from Puerto Principe say a convoy has arrived from Santa Cruz under a guard of 900 troops, who encountered 2,000 insurgents intrenched. After a desperate fight they destroyed them.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, April 14.—The city and county attorney commenced suit yesterday against the San Francisco and Citizens' Gas Company. The complaint alleges that this company has forfeited its property, valued at one million dollars, by violation of the law of 1862, under which it was incorporated, in transferring its franchise and real property to the San Francisco Gas Co.

BY ATLANTIC CABLE.

LONDON, April 14.—Later advices from Yokohama say the civil war is raging with increased violence in the Japanese Empire. The northern party, opponents of the Mikado, had a strong fleet under command of the former Chief Admiral of the Tycoon. They made their headquarters on the island of Yesso and have since captured Zedo and Lama, important places on the western coast of Niphon, from which they can make incursions to the main land. Earthquakes were felt but no lives lost.

A cold northerly wind has prevailed for the last 24 hours. Ice formed last night.

THE EAST.

The recent consolidation of the infantry forces of the United States leaves but two regiments of colored troops in the service.

The Cincinnati *Times* denies the report of the death of General Sol. Meredith, and says he is alive and improving in health.

Among the officers left without commands by the consolidation of regiments, are Doubleday, Sickles, De Trobriand, Wager, Swayne and Butterfield.

Mr. Reed, editor of the *Northwestern Christian Advocate*, has accepted a call to the First M. E. Church of Chicago. This is one of the most flourishing churches in the West, having an annual income of $30,000.

The Reade libel suit has given a great impulse to the sale of Griffith Gaunt. Fields, Osgood & Co. immediately brought out a new addition of the book, and Harper & Brothers have just followed suit. Mr. Reade and his novel could not have had a better advertisement. All the strictly moral people in the country are assiduously reading Griffith Gaunt, in order to find out wherein its alleged impropriety exists.

Martial law has been entirely withdrawn in Arkansas. An efficient Governor, with this potent weapon, has curbed embryo rebellion and made the State comparatively safe for peaceful citizens. The means are more than justified by the end.

In his Lynchburg speech the other day, Andrew Johnson put himself in happy accord with the whole people. He remarked that he had enjoyed more real satisfaction in the last two weeks than during the whole term of his office. The feeling of satisfaction is mutual; no act of Mr. Johnson's whole life gave the people so much pleasure as the going out of office.

Brick Pomeroy's paper is about dying. Even under Howard's management, the circulation of the paper had run down to less than 5,000 copies, and since his departure its fate has been sealed. It now lives on the corporation advertising, and with the loss of that, will collapse at once. "Brick" wrote his paper to suit the inhabitants of the Five Points, but he made the mistake of forgetting that the Five Pointers could not read.

Secretary Fish is mastering the situation of his office rapidly. In a conversation a few days ago, he said his few days service had given him both pain and pleasure. He was pained to learn the great number of his fellow citizens were in such a bad state of health that a residence abroad was absolutely necessary for their recovery. But he was pleased to learn, at the same time, of the very great number of his patriotic fellow-citizens who are willing to serve the Government on extremely small pay.

New York is horrified at the discovery that the number of marriages in that city is decreasing, and asks "What's up?" Were it Chicago, now, we should not wonder, but moral New York, it is, indeed, astonishing. By-the-by, of Chicago there is a new story. One of the journals of that city remarked in a notice of a marriage that the couple were "united for life," whereupon a newspaper in a near city says that it was the first time anything of the kind had ever occurred in Chicago. To which "slap" no one in the latter city has thus far dared to reply.

The colored men of Washington—some of them of means and intelligence—have undertaken the very important enterprise of a National weekly newspaper organ of their race, to be published in Washington, and to be owned and conducted exclusively by an association of colored men. The project has been under consideration a long time. Frederic Douglass is talked of for its editor. If is succeeds, it must exercise a guiding political influence of the great mass of the colored people of the whole country; for there are no people more tractable than this race—in their present condition, at least—to those who have their respect and trust.

STRANGE PHENOMENON.—Last Saturday, about noon, a phenomenon occured in the heavens, that has probably never happened before. There were a few passing clouds in the horizon, and the sun shone brightly. The phenomenon consisted of three rings, two of them around the sun with its outside rim passing through the sun. The two rings around the sun appeared as if one was the shadow of the other, slanting off to the west. The rings around the sun, however, do not excite the curiosity of our citizens to any great extent, nor did the mock sun which was seen about 7 o'clock A. M. of the same day, for such have been seen before. The large ring north of the sun was the object of interest, and seems to puzzle our philosophers and astronomers. Where the circle passed through the sun it was a bright red but the remainder of the circle was a whitish color, the same as the two rings around the sun, and contained nine mock suns, the mock suns so divided around the circle that if a straight line was drawn from one mock sun to another on the outside line it would form an octagon shape with a mock sun at each point of the squares. The phenomenon lasted two hours, commencing at noon and continued until 2 o'clock. It has failed to prognosticate any change of the weather, as is usually believed in regard to such signs, nor has any more strange signs appeared in the horizon since. It was certainly a very pretty sight to those who examined closely, and looked very much like a three wheeled velocipede from a side view, the sun being the axle of the two hind wheels and the front wheel extending back between the hind wheels to the axle representing the sun, and the course of the imaginary velocipede being northward.—*Fresno Journal, April 1.*

The editor of the Cincinnati *Enquirer*, Mr. Pendleton's personal organ, in a letter from Washington, denounces General Grant for saying that it must be "understood that no repudiator of one farthing of the public debt will be trusted in public place." This is pronounced a "tyrannous exaction of the bondholders"—a form of expression that proves the aptness of the President's language and the necessity for his stern proclamation against repudiation and repudiators. It is too true that the foul heresy of repudiation has many believers who, notwithstanding their discomfiture last fall, do not propose to give up the contest. In view of this fact, there is all the more significance and value in the way the President has put his foot down in this connection.

THE WEST.

A dispatch from Timbucktoo, Nevada county, dated April 1st, says two of Mr. and Mrs. Warren's little girls fell into Essner & Co.'s flume that afternoon, passing through it with a big head of water, which carried them some 1,500 yards. They are both living yet, but the youngest will hardly recover.

The Sacramento *Bee* of the 8th says: A girl twelve years of age, named Betty Wolf, residing with her uncle at Silverville, committed suicide last Friday evening, by taking strychnine. She had been accused, some days previous, of taking some buttons from one of her school mates, and it is supposed that distress of mind drove her to the rash deed.

John Wasson, Pingra Freeman and Sol Lewis have been appointed Commissioners to [illegible] Registers for the new county of Elko, Nevada. If 1,000 voters shall be registered by the 20th of May the new county goes; if not, it is no go. The Commissioners met at Elko on the 3d and appointed agents. They meet again on the 12th. Each voter is obliged to pay a poll-tax [illegible] his name is registered, and it is not likely 1,000 will care to become resident voters on these terms.

It is said that A. T. Stewart has found two verses that fit him exactly. "But the Scribes and Pharisees said unto him, 'This thing can thou not do, unless thou sell all thou hast.'" "And when he heard this he was exceedingly sorrowful, for he was very rich."

In the Minnesota Legislature recently, a bill to submit the question of extending the franchise to women was defeated by only one vote. During the debate on the bill the lobbies and floor were crowded with women, two of whom availed themselves of an invitation to make speeches on the subject.
